

## THE ANACONDA REFINERY.

Very Strong Probability That It Will be Located at Great Falls.

Three Forks Cannot Supply the Required Water Pressure, So Says Mr. Toole.

The Manitoba Railway Company Working for Great Falls and Offering Big Inducements.

"One thing is certain, however, and that is that the Anaconda refinery will be built at Three Forks."—Inter Mountain.

There is nothing certain about it all. It can be stated with a fair degree of accuracy, however, that the Anaconda refinery will be located at Great Falls, and this is stated on no less an authority than the Hon. John R. Toole, who is very prominently connected with Manager Marcus Daly. Mr. Toole has been for the past three months investigating the Three Forks scheme. Mr. Toole, who is in the city, told an *INDEPENDENT* reporter last night that it was the intention to build at Three Forks. The Anaconda company bonded a large tract of land there from the English syndicate which owns it. Competent engineers have been at work looking up the water supply. The water power has been given a great deal of careful and diligent scrutiny to satisfy the Northern Pacific railroad company, which has offered the Anaconda company inducements to build at that point. But it has been ascertained that the rivers at Three Forks will not supply the pressure required to run a refining plant.

On the other hand, Mr. Toole says, the Manitoba railway company has offered very large inducements to have the electric refinery located at Great Falls. The Boston & Montana company have decided to build there and Mr. Toole thinks it probable that his company will decide to locate there as it requires 10,000 horse power of water pressure, and the Missouri River at Great Falls will furnish that and ten times as much more. Three Forks cannot at the present time furnish the necessary pressure and the Anaconda company has had enough experience with water to be perfectly sure in the future that it shall have plenty of water. It was supposed when the smelters were erected at Anaconda that the Warm Springs creek would supply plenty of water, and now there is hardly enough for actual need.

The Manitoba at present holds the upper hand as their offer is much better than that of the Northern Pacific company, and it was inferred from his conversation that if the company intends building a copper refinery it will be located at Great Falls, where there is sufficient water power for half a dozen other refineries. The result of this will be that the Montana Central railway will be extended to Anaconda. It was further learned from Mr. Toole that the new iron smelter is partly in operation, four furnaces being used, which produce about sixty tons of matte per day, while the upper works are turning out the usual amount or about 150 tons per day. The concentrators and silver mill are also in full operation and the Anaconda works are producing the same quantity of copper and silver that they did before the fire.

**Mining Notes.**  
There is no activity in Iron mountain or O. R. & N. shares.  
Holders of Southern Cross are very firm. The Cameron mill was to begin yesterday dropping on ore from the Southern Cross.  
A sale of delinquent stock of the Volunteer Mining company of Butte was made Saturday, the prices realized being from 5 to 7 1/2 cents.

The Butte Miner on one page of its Sunday issue quotes Major Budd at 31 cents and on another page at 21 1/2. The correct figure is about 25 cents.

At the annual meeting of the Boston & Montana stockholders, held October 31, trustees for the ensuing year were selected as follows: Joseph W. Clark, of Connecticut, A. S. Bigelow, of Boston, M. Spencer, of Boston, Leonard Lewisohn, of New York, H. Wallenstein, of New York, D. F. Dennis, of Boston, and Thomas Couch, of this city.

Louis Tauscher, a prominent mining man of St. Louis, who is largely interested in the Golden Era mine in Beaverhead county, is in the city on his way to the mine to make arrangements for a new plan of development. The golden Era is an old time producer, but for some reason has not been a paying proposition, of late. It is developed by an incline shaft about 300 and at the vein matter is said to be too base for profitable treatment. Mr. Tauscher will give instructions to sink a vertical shaft on the property.

## AT THE OPERA HOUSE.

The German Dramatic Club Successful With Their Last Production.

The performance of "Lenore die Todtentrauer," given by the German Dramatic club at Ming's opera house Sunday evening, was a dramatic success, and too much credit cannot be given to the different actors for their careful rendition of their various roles, and the German element should encourage this really talented club by attending their performances in larger numbers. Mrs. Kenck as "Lenore" excelled herself and her beautiful and touching rendition of the third act where she is waiting for her betrothed to return, brought tears to the eyes of many in the audience. Mr. Koch's personation of Lieutenant Starkow showed him a careful and conscientious student, and the death scene on the battlefield was equal to many of the finest professionals. Mr. Blume, as the rude servant with the heart of a child, proved himself an actor of no mean ability. The same can be said of Mr. Kahn, whose careful personation of a Lutheran priest with the pronunciation and delivery of a deep and profound scholar, was much admired. Mrs. Blume, as the intriguing countess Aurora, was well up in her part. Miss Engel, Messrs. Blume, Teichert, Freund, Naegele and Stein faithfully performed their different parts. Floral offerings were numerous and Mr. Blume was the recipient of a very handsome one. The scenery prepared by Mr. Blume was beautiful. The club proposes producing the best productions of German dramatists during the coming winter.

This club intends producing at an early day Caroline Birchleifer's "Die Waime von Lowend" for the benefit of the Helene Benevolent society, with that charming and talented elocutionist Miss Rosenfield in the title role. Her unsurpassed rendition of "Deborah" a few months ago is still fresh to the memory of many.

Ladies should call at Fred Gamers' and get a pair of slippers, as he is selling them at a very low figure.
